In March 2012, the Board of Regents voted to accept 27 general education courses in the Technical College System of Georgia (TCSG) as transferable to the University System of Georgia (USG) for credit in the core curriculum, the basic courses all students must take to earn a degree. This number of courses enhances how TCSG students are able to pursue baccalaureate degree opportunities at USG institutions. The USG and TCSG are committed to answering Governor Deal's call for more Georgians to complete college.

CTC is a great option for students seeking an affordable education!
